Ogden, UT 84403

Re: Administrative Order
Docket No. SDWA-08-2005-0049
PWS ID #WY5601544

Dear Mr. Wangsgard:

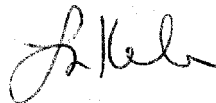

Thank you for your telephone call on September 23, 2005 and letter dated October 11, 2005 regarding the requirements of the Administrative Order issued by the Environmental Protection Agency (EPA) to the Boy Scouts of America, Trapper Trails Council regarding Camp Loll on August 24, 2005, Docket number SDWA-08-2005-0049. We received the Camp Loll sampling results that you sent to EPA for nitrate and nitrite from June 2005 and total coliform bacteria from August 2005.

The June 2005 nitrite sample brings Camp Loll into compliance with the September 23, 2005 Administrative Order, which required sampling for nitrite by October 8, 2005.

Regarding the total coliform positive sample taken in August 2005, this raises an issue not addressed in the Administrative Order. I have conferred with Charla Colson in the EPA Municipal Systems Unit and rule manager for the total coliform rule. Based on our understanding that the camp closed on August 14, 2005 and will not reopen until June 2006, Ms. Colson agrees that you may take your 4 repeat samples in June, 2006 and 5 routine coliform samples in July, 2006. If you have additional questions on these requirements, you may call Ms. Colson at 303-312-6280.

Thank you for your concern regarding compliance at Camp Loll, and please contact me at 303-312-6896 if you have additional questions regarding the Administrative Order.

Sincerely,
